

WOODLAND BUNDLE

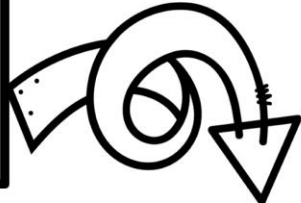

A sharp idea

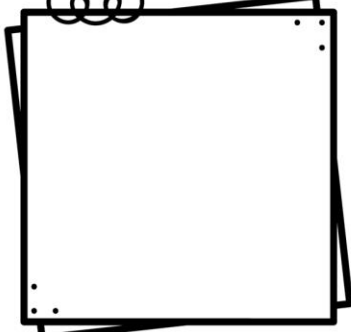

Quills of the porcupine have a needle like tips with sharp barbs. The quills penetrate easily but are difficult to pull out.

Scientists have made a tape with barbs.

What is your sharp idea inspired by porcupines?

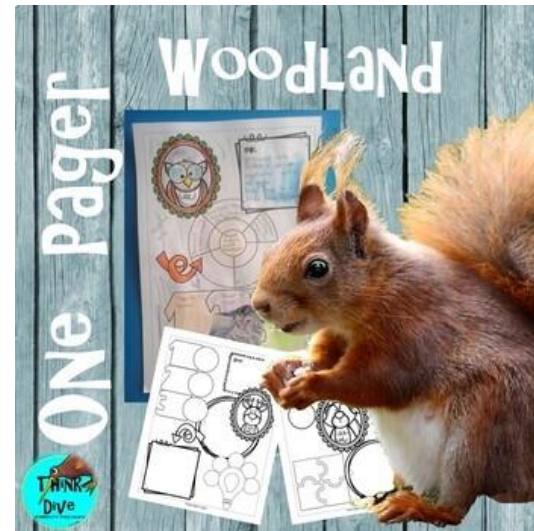

Think Dive © 2019

Looking for an hands-on lessons and activities that engage children in environmental literacy? Biomimicry offers project-based instructions that may inspire future generations to care for nature and to see nature as a spot that offer not only calmness and spectacular experiences of beauty and drama but also can make your head twirl around with possibilities.
