

The Classification of Living Things

- Inquiry Activity
- How living things are grouped
- Taxonomy
- Naming Organisms
- The 6 Kingdoms
- Dichotomous Key

This digital presentation includes both Google and Office resources and is Google Classroom Ready

“

★★★★★ Extremely satisfied - My class loved this resource and it was helpful for reinforcing my standards. This was a great resource!

★★★★★ Extremely satisfied - This PowerPoint accompanied with another really helped me explain the dichotomous key and how it is used to my students. Thanks!!

HOW THIS LESSON HELPS YOU

- **Saves Prep Time** - Everything is pre-made, ready to go, and fully editable.
- **Provides Built-In Assessments** - The worksheet lets you quickly check for understanding.
- **Provides Applicability** - the lesson includes multiple examples of real-life applications.

NO PREP

✓ **Simply Download and Teach/Upload** to your class site.

✓ **Assessment Included**
Dichotomous Key
Activity, The 6 Kingdoms
WebQuest, Reading

✓ **Interactive & Video-Enhanced Lesson**

✓ **Google, Office, & PDF**

- ★ A Complete, Fully-Editable Lesson & Student Notes
- ★ Teacher and Student Versions of your Lesson with Embedded Videos
- ★ Worksheet, STEM Investigation, & Case Study

What You Get

THE CLASSIFICATION OF LIVING THINGS TEACHER & STUDENT VERSION

Student Notes

Worksheet

Dichotomous Key

- A dichotomous key is a tool that allows you to determine the scientific name of an object (living or not) by answering a series of questions
- It is called a key because each answer gets you one step closer to the correct name

Taxonomy

- The science of grouping living organisms based on shared characteristics
- _____

Domain
Kingdom
Phylum
Class
Order
Family
Genus
Species

Red fox (Vulpes vulpes)

Student version of the lesson includes blanks to fill in.

What Will Your Students Learn?

- ✓ How living things are grouped
- ✓ Taxonomy and Classification
- ✓ How Living Things are Classified
- ✓ Naming Organisms
- ✓ The Six Kingdoms
- ✓ How to Read and Use a Dichotomous Key

Videos Embedded & Student Notes

Activity and Reading + Google, PDF, & Office

Your Lesson

The Classification of Living Things - Student Notes

How Do We Group Things?

With the person beside you, think about the **HOW** things are grouped together in a grocery store. Think about it in two ways.
The first should be very general while the second is more specific. Use the library examples as a guide.

Example: The Library

General – Fiction (not real) and Non-Fiction (real)
Specific – For both fiction and non-fiction, books are grouped based on subject (i.e., for fiction – mystery vs. science fiction

How are Living Things Grouped?

- Organisms are grouped just like objects in library or a grocery store
- _____
- They are then grouped on more specific characteristics such as appearance
- The grouping of living things makes it easier for scientists to study them

Taxonomy

- The science of grouping living organisms based on shared characteristics
- _____

Taxonomy

There are 7 levels of taxonomy. Each is more specific than the previous and includes fewer organisms.

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

Taxonomy of Humans – draw the diagram into your notes
