Included Skills

WHY ARE WE LEARNING THIS?

- Handwriting: Practicing handwriting builds fine motor skills, hand-eye coordination, and familiarity with the alphabet, preparing children for writing.
- Sight Word Practice- Sight words are common words that children should recognize instantly to improve reading fluency. Knowing these words without sounding them out helps build confidence and reading comprehension. In first grade, strong sight word knowledge allows children to focus on understanding stories rather than struggling with word recognition.
- Not all children will be ready for all skills included in this packet. Please pick and choose the appropriate skills for your students/child. If you purchased the full curriculum, there is a lot of repetition, so you can ensure they grasp concepts later in the year. (If this is too hard consider purchasing the 3 Year Old Curriculum.
- Please be cautious with scissor work. Some activities may need to be cut by an adult before working.
- Make learning Fun! Don't stress too much at this age. Just enjoy the process.
