The Power of Belief

Sarah was a determined student who always tried to **believe in** herself. She loved starting new activities and trying new hobbies. Even when things were tough, she persisted. Sarah loved playing musical instruments, and her piano tutor often reminded her that "if you **truly believe** you can do it, you're halfway there!"

When the school announced there would be a talent show, Sarah tried something new. She **believed she could** perform well if she stuck to piano, but she wanted a new challenge. So, Sarah did a magic trick instead! She was nervous about doing something different, but her friends were **all believers** that she could pull it off.

Sarah practiced diligently and studied hard, learning all about how magic tricks work. She felt a small amount of **disbelief** that her magic tricks could win the talent show, but she pushed through the doubt, remembering her piano tutor's words.

When it came time to perform, Sarah's tricks captivated the audience! From vanishing a coin to astonishing card tricks, it was an unbelievable performance. Sarah knew it wasn't just the tricks that made her act wonderful, but it was her unwavering belief that she could do something new. Sarah was glad to be a believer in the power of positive thinking.
