How to assemble

1. You will need

- Cardstock
- Laminator
- Scissors or cutting board
- Split rings
- Hole punch
- Curtain rod or Towel Holder

2. Print and laminate all cards onto Cardstock

for extra durability. Use the hole punch to cut to cut out the black circles as marked.

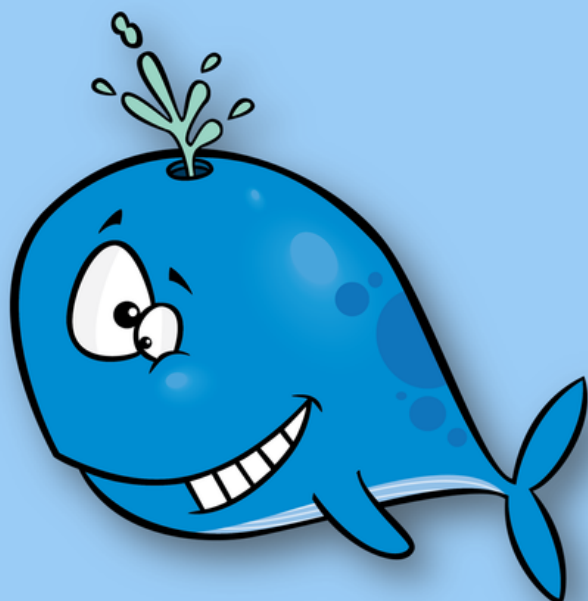

3..Use split rings, or curtain rings to keep all of the cards in sequence.

4. Use the rings to thread onto the curtain rail or towel holder. I have used an ikea towel holder for my set, but any rod as long as it is wide enough to hold all of the components of your interactive calendar.

REVIEW

This was so easy to
put together.
I have used my
calendar for a few
years now. I am
looking forward to
using this new one

REVIEW

I am so far
ahead of the
game. I will
never miss a
birthday!!
