TEACHER PLANNER-DAYBOOK

Black and Gold Harlequin Design

Teacher Notes

This daybook planner is designed for you to use either in Google slides or in PowerPoint (Or PDF)

I have created it in landscape layout to maximise the use of the space on each page. You can see a page at a glance which makes your weekly planning a breeze.

I have always used this style of programming and it suits my needs perfectly. I hope that this style resonates with you. It's simple to use and you will create a comprehensive overview of your weekly and yearly planning.

HOW TO USE

You may choose to make a copy for each term and so only using the pages that you will be needing for each term. If you are absent from your class for any reason, it is easy to send a digital version of your programme to the substitute of relief teacher who will be replacing you.

Stickers are included for you to use as reminders, or for a fun way to brighten up your planner.

CREDITS

Without the brilliance of these clip artists and font designers, our resources would not be as engaging and fun to create, nor for our students to use. Please take time to visit these wonderful designers.
