animals!

Name:

Winter Animals L3

Arctic fox

Arctic foxes are small and clever mammals.
Arctic foxes have thick, white fur.
They can run and jump quickly.
They eat small animals and berries.
Arctic foxes live in the cold Arctic.
Arctic foxes like to play and explore.

Name:

Winter Animals L3

Arctic hare

Arctic hares are big, fluffy rabbits.
Arctic hares have long claws on their back legs.
They can dig dens in the packed snow.
They eat twigs, roots, mosses, and berries.
Arctic hares live in the cold Arctic tundra.
Arctic hares like to dig in the snow and eat.

Name:

Winter Animals L3

Arctic wolf

Arctic wolves are clever mammals.
Arctic wolves have a thick coat to keep them warm.
They can find food with their pack and share it.
They eat animals like caribou, hares, and foxes.
Arctic wolves live in the icy Arctic.
Arctic wolves like to run, play, and howl.

Name:

Winter Animals L3

moose

Moose are big and tall animals.
Moose have long legs and antlers.
They can swim in lakes and rivers.
They eat leaves, twigs, and grass.
Moose live in cold Arctic forests.
Moose like to be near the water.

Name:

Winter Animals L3

narwhal

Narwhals are special toothed whales.
Narwhals have a twisty tusk on their head.
They can use their tusk to break holes in the ice.
They eat fish, shrimp, and squid.
Narwhals live in the icy waters of the Arctic ocean.
Narwhals like to be with other narwhals in groups called pods.

10 animals!

Name:

Winter Animals L3

polar bear

Polar bears are large, powerful mammals.
Polar bears have thick, white fur to keep warm.
They can swim in the icy water to find food.
They eat mostly fish and different kinds of seals.
Polar bears live in the cold Arctic regions.
Polar bears like to hunt for food to eat.
