Change It?
Changing y to i Game

What you Need

- Word cards from pages 31-35
- 3 copies of the Y and i cards from pages 40-41. Optional- print y and i on different colored paper. (for example, y on yellow and i on red)
- Pencil and paperclip for spinner

How to Play

- Put the word cards face down on the table.
- Place the y and i cards in two piles face up.
- The first player takes a word card. If the word has a consonant + y, the y should change to an i when adding a suffix. The player should take an i card from the i pile. If the word has a vowel + y, the y does not change when adding a suffix and the player takes a y card from the y pile. Each player takes turns picking a word card and taking either a y or i card. If a player chooses an incorrect card, they lose that turn.
- When all the word cards have been used, one player spins the spinner. The player with the most cards of the letter landed on is the winner.
- Optional – Each player must make a new word by adding a suffix to the word card they chose.
