RIISING ACTION

Build the Adventure

The **rising action** is where the excitement begins. The hero faces challenges, discovers clues, meets allies, and encounters obstacles that stand in the way of their goal. Each problem should make the story more interesting and increase the tension.

In a graphic novel, this is often the longest section because it includes many important events. Perhaps an alien signal is detected, a spaceship malfunctions, or a mysterious villain appears. Every event should move the hero closer to a major confrontation.

ASK YOURSELF...

What problems will my hero face?
How do the challenges become harder?
