Some aspects of Genre are recognizable and familiar while others break conventions, are challenging and change over time.

Choosing which Genre a text falls into helps the reader know what to expect. It can also help readers to group similar texts to organize them. Like in the library or in a book shop.

Lesson 2.1 Prior Knowledge

Now let's discuss the central themes for this assessment.

Information

The 'Telephone game' encourages players to practice transforming direct speech into reported speech.

Direct speech is the reporting of speech by repeating the actual words of a speaker using quotation marks.

Reported speech in a text is used to communicate what someone else said, but without using the exact words.

In reported speech the tense of the verbs is often changed.

This was a great resource. My students loved doing the activities and I found it very helpful!

Thank you so much. This made my job really easy. My students were so engaged and they did well in their writing.

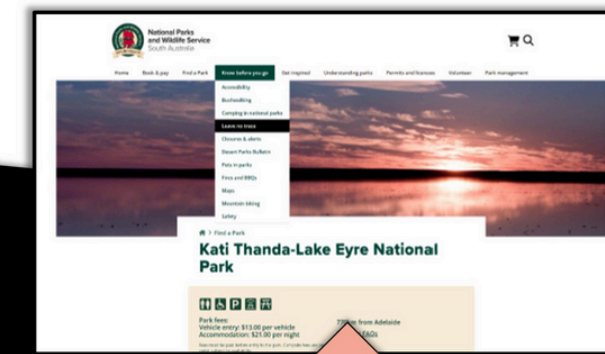

Making Comparisons

in the texts:

Visit *Kati Thanda-Lake Eyre brochure* and *South Australia's Guide to Kati Thanda-Lake Eyre travel blog*.

The brochure has a short catchy statement of position that grabs attention and serves as a hook for the reader.

The travel blog has a longer statement of position that allows for more elaboration and evidence.

Anything from Oceanview Resources is a must. Resources are to the highest quality and extremely engaging. I highly recommend!
